

MODULO RECYCLING STATIONS

The modular design of the MODULO recycling stations allows you to setup your own recycling station from 1 to 4 streams upon your present or future needs. The MODULO series has a 87 liters – 23 gal recycled plastic liner in each compartment. The backboard gets 8" x 10" labels given a clear identification of the recycling service offered. The standard labels are "WASTE", "RECYCLABLE", "CANS-BOTTLES" and "COMPOSTABLE".

Ergonomic design: a front door gives an easy access to the plastic liner inside and also permits to clean the inside of the cabinet. No bin liner lifting from the top of the cabinet here, preventing backache. Bag size is 28" x 38". The MODULO recycling stations are mounted on 4 levellers or on optional 2 inches swivel wheels.

Materials

- 18 gauge steel metal sheet
- Powder coating paint, charcoal colour
- Easy washable finish
- 16.5 x 25 cm / 6 1/2" x 10" rectangular hole

Dimensions per module
